Aug 2020 to Dec 2020

Reference:-

Tom joseph

Sales executive

9544850999

- Advanced from sales to handle billing and customer support, ensuring customer satisfaction and operational efficiency.

➤ PROJECT PORFOLIO

SAFQAT

A B2B e-commerce platform for seamless product sales and communication

Technology Stack: Next.js, Node.js, Material UI, Bootstrap, MongoDB, AWS

Role: Developed frontend components using Next.js, focused on UI/UX design and responsive layouts. Integrated authentication and API handling to streamline user experience.

Keywords: B2B, e-commerce, Next.js, responsive design, authentication, API integration, AWS deployment

SAFQAT SUPPLIER APP

Web app for suppliers to manage inventory and sales

Technology Stack: Next.js, Bootstrap, Node.js, MongoDB, AWS

Role: Built frontend interfaces for supplier management and team collaboration, using Bootstrap for responsive layouts and Next.js for dynamic user interfaces. Managed product listings, inventory tracking, and user authentication.

Keywords: Supplier management, inventory tracking, Bootstrap, collaboration, Next.js

SHOWA GLOVES

E-commerce site for product display and comparison

Technology Stack: WordPress, HTML5, CSS3, JavaScript, Bootstrap4

Role: Developed WordPress frontend to showcase and compare products, focusing on cross-browser compatibility and optimized load times. Employed Gulp.js to manage build processes.

Keywords: WordPress, e-commerce, HTML5, CSS3, JavaScript, cross-browser compatibility, Gulp.js

BRAHMAS

Educational platform for online courses and job listings

Technology Stack: WordPress, PHP, HTML5, CSS3, JavaScript, Bootstrap4

Role: Created a user-friendly platform with WordPress and PHP for content management, incorporating custom HTML/CSS components for course listings and job postings.

Keywords: WordPress, PHP, online courses, job listings, HTML5, CSS3, Bootstrap4

MAYEE WATER

Content website to showcase client expertise and services

Technology Stack: HTML5, CSS3, JavaScript, Gulp.js, WordPress

Role: Developed a clean, responsive front-end layout using HTML5 and CSS3, enhancing user experience with intuitive navigation and fast load times. Leveraged Gulp.js for project automation and optimized performance. Integrated WordPress for seamless content management, ensuring scalability and ease of updates for the client.

Keywords: content website, HTML5, CSS3, JavaScript, Gulp.js, WordPress, user experience, responsive design, content management
